- Food
- Raffles
- 50/50

Four Year old Cassidy was recently diagnosed with Wilm's Disease, Pediatric Cancer and had her kidney removed on October 14th. She will now undergo weeks of chemotherapy. Please help Dan and his family as they now face astronomical medical bills and are in need of assistance.

Her father Dan is a member of the West Babylon Fire Department. Dan and his wife Jessica have two other children under the age of four. Their two parent working family income is now one as Jessica is forced to stay home and tend to the needs of their daughter Cassidy.

Cassidy McCarthy
