

# New York's Constitutional Convention Training

## What You Need to Know

Join us for a training educating union members about the impact of a NYS Constitutional Convention, a boondoggle that will be controlled by Albany special interests and lobbyists.

A Constitutional Convention will cost taxpayers millions of dollars in an effort to achieve reforms that can already occur without creating another layer of government. Meanwhile, the protections we've fought for and won would be in jeopardy. This money would be better invested in our schools, crumbling infrastructure and on vital public services.
